

### **COUNCIL COMMUNIQUE – JULY 2006**

Summer is now in full swing with its' endless procession of fun outdoor activities and sports under favorable skies. Spring and the rainy weather we experienced are now behind us, despite the occasional rainy day of late. Unfortunately the variable weather has created delays in scheduled roadwork in the municipality. With the help of Mother Nature we hope to make up for lost time.

Council members suggest that residents pay special attention that portable and permanent basketball nets on their property are installed away from the road as much as possible to avoid any unnecessary accidents. Summer time is for vacations and fun so let us use prudence so Baie D'Urfé is accident free.

Residents and strangers alike cannot help noticing what a beautiful Town Baie D'Urfé is, probably one of the nicest in Québec and we hope it stays that way. As such, Council wants to draw to your attention the importance of always carrying a plastic bag or small shovel when out strolling with your dogs.

In conclusion, I would like to congratulate and extend my heartfelt thanks to the administrative members of the Baie D'Urfé Citizens' Association for a wonderful festival on June 16-18, 2006. Not only was the weather ideal, but it was a great opportunity to celebrate Father's Day and our Town among family and friends. A special note of thanks must be made for the tireless efforts of Lyman and Connie Canning, who were key organizers of this year's festival. A big thank-you as well to the town employees and to the countless volunteers who helped make Baie D'Urfé Days possible and such a success this year.

I wish everyone a great and much deserved vacation.

Huguette Thomassin, Councillor
