

## COUNCIL COMMUNIQUE – MARCH 2006

January is over and so will February by the time you read this issue of the News & Views. The winter weather has been strange, to say the least, with lots of rain and temperature changes. Hopefully, March will bring us better weather and more sunshine.

Your Town Council has been busy. We finalized the Town's budget and sent out tax bills. Sorry. You can see our Town Hall staff hard at work preparing them to be sent. We have had special council meetings, regular council meetings, numerous caucus meetings and, yes, we seem to be getting a lot accomplished. We have chosen members for several committees - Town Planning, Grants, Traffic and Demolition. There is a committee looking at the Fritz Community Centre and Red Barn facilities and another looking at the rest of the Town-owned buildings. We are also meeting with other West Island cities about common areas and problems such as public transportation and road networks.

Madame Mayor, Maria Tutino, meets regularly with the leaders of the other demerged cities and towns and is working tirelessly with the "G-15", as we are all known. She is reporting on this area separately in this issue of the News & Views.

The Baie d'Urfé Citizens' Association annual general meeting was held on February 21st, 2006 and was attended by several councillors. We wish to offer our congratulations to the new executive led by Ralph Nener and look forward to working with them.

Remember, if you have concerns or ideas to present, you can contact any member of the Council to air them.

Wayne Belvedere  
Councillor  
Security and Industrial Sector
