

Council Communiqué – December 2008

Energy Wise Home Diagnostic

Good news! The Town of Baie-D'Urfé ranks first among all West Island cities in completing the Hydro-Québec questionnaire designed to reduce energy consumption. As of the last report received, 15.89% of residents have filled out the questionnaire which translates into 4 485.00 \$ for our town. These funds will serve to renovate our library. We require everyone's participation to reach our goal of 7 758,00 \$. Volunteers are available to assist those experiencing difficulties filling out the questionnaire. Please call Town Hall to obtain the coordinates of these volunteers.

The Baie-D'Urfé Website

The Town's website is a very useful tool. You can easily access the information you are seeking 24/7. Give it a try and visit www.baie-d'urfe.qc.ca.

Information Sessions

We organized three information sessions in 2008, two of which related to tax credits for retired seniors who remain in their own home yet who still require assistance. The third session was held at the end of November in response to requests from citizens who attended the first meeting. No sessions will be held during the cold season. Should you have suggestions for 2009, please share them with me at 457-3450. It will be my pleasure to organize them in the spring.

Seasons Greetings

Finally, my fellow counsellors and I wish you all very happy holidays and all the best for the New Year.

Huguette Thomassin
Councillor
