la Vie communautaire

Town Clerk, Communications and Community Life  
Department

## *Construction work at John Abbott*

---

*Construction work for John Abbott's new Science and Health Technologies building began September 13, 2010. Work should be completed for the fall 2012 semester. This should not have any impact on traffic within the Town of Baie-D'Urfé since traffic will be rerouted within Sainte-Anne-de-Bellevue. We will nevertheless keep you informed of updates as the work progresses.*

### *Last Update - December 13<sup>th</sup>, 2010*

- To improve safety for vehicles, pedestrians and cyclist, the center campus roadway is now one-way southbound (highlighted orange arrow on [map](#)) until further notice.
- Northbound traffic must use the ring road (highlighted yellow on [map](#)).
- The Laird Hall entrance laneway is also one-way southbound so Laird Hall, Campus Security and Raymond south vehicle access is only accessible from the north side, near JAC bus terminus.
- Pedestrians and cyclists must use the west side of the center roadway and the Laird entrance roadway when passing the construction site.
