

Dear residents,

We have consulted the new map that the government has proposed for the *Special Intervention Zone* and are pleased to note that no houses are located in the new zone. This means that our efforts have borne fruits.

I wish to thank everyone who took the time to share information with the government concerning their property.

The Town still remains on the list of all municipalities that were flooded in 2017 and 2019 as well as in the 0-20 years flood zone, although no buildings are included.

We are currently evaluating what can and cannot be done for the portion of our territory situated in the **ZIS2019** area and will be able to give you further details in the coming days.

I encourage you to consult the new map at this address [www.cehq.gouv.qc.ca/zones-inond/ZIS-20190715/index.html](http://www.cehq.gouv.qc.ca/zones-inond/ZIS-20190715/index.html). Should you note any contrary information, please let us know as soon as possible.

You can be assured of all my support and that of the Town Council in this file.

Regards,

A handwritten signature in blue ink that reads 'Maria Tutino'.
